## REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Administrative Regulation: 907 KAR 1:631

Contact Person: Stuart Owen

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes the Department for Medicaid Services' (DMS's) reimbursement provisions and requirements for vision services provided to a Medicaid recipient who is not enrolled in a managed care organization.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish DMS's reimbursement provisions and requirements for vision services provided to a Medicaid recipient who is not enrolled in a managed care organization.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by establishing DMS's reimbursement provisions and requirements for vision services provided to a Medicaid recipient who is not enrolled in a managed care organization.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the authorizing statutes by establishing DMS's reimbursement provisions and requirements for vision services provided to a Medicaid recipient who is not enrolled in a managed care organization.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendment incorporates by reference a fee schedule which contains DMS's reimbursement for vision services; establishes that DMS will reimburse for one (1) pair of eyeglasses per year unless the pair is broken or lost or the prescription changes in which case DMS will reimburse for a second pair (currently, DMS in a related administrative regulation has an annual dollar limit of \$200 or \$400 for eyeglasses depending on the recipient's benefit plan); insert various program integrity measures; and establishes that reimbursement is contingent upon receiving federal approval/funding. This amended administrative regulation is being promulgated in conjunction with three (3) other administrative regulations - 907 KAR 1:632, Vision Program coverage provisions and requirements; 907 KAR 1:038, Hearing program coverage provisions and requirements; and 907 KAR 1:039, Hearing Program reimbursement provisions and requirements. 907 KAR 1:039 currently contains the \$200 and \$400 annual limit on eyeglasses, but vision program provisions are being removed from that administrative regulation as they will be addressed in this administrative regulation. The amendment after comments replaces the material incorporated by reference – December 2013 version of the Department for Medicaid Services Vision Program Fee Schedule with the April 2014 version; revises the definition of "optometrist" to refer to the chapter of Kentucky Revised Statutes which govern the practice of optometry.

(b) The necessity of the amendment to this administrative regulation: Establishing a

limit of one (1) pair of eyeglasses [or two (2) if the first pair is lost or the recipient's prescription changes] per year rather than an annual dollar cap (\$200 or \$400 as is currently stated in a related administrative regulation) is necessary to comply with an Affordable Care Act mandate. The mandate prohibits, effective January 1, 2014, annual dollar limits on health insurance benefits that are "essential health benefits." Medicaid program benefits are included in the scope of essential health benefits. Establishing that the provisions in this administrative regulation are contingent upon the receipt of federal approval and federal funding is necessary to protect Kentucky taxpayer monies from being used if federal matching funding is not being provided. Additional amendments are necessary to incorporate various program integrity measures; clarify provisions and requirements; and to provide a user friendly fee schedule of reimbursement. Revising the Department for Medicaid Services Vision Program Fee Schedule is necessary as the prior version that was filed did not contain all of the vision codes covered by DMS. Amending the definition of "optometrist" is necessary for to refer to the appropriate chapter of Kentucky Revised Statutes.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment will conform to the content of the authorizing statutes by complying with a federal mandate; by preventing a potential loss of state funds; by inserting program integrity measures; and by clarifying provisions and requirements. The amendment after comments conforms to the content of the authorizing statutes by incorporating a complete version of the Department for Medicaid Services Vision Program Fee Schedule and by referring to the appropriate chapter of Kentucky Revised Statutes for a definition of "optometrist."

(d) How the amendment will assist in the effective administration of the statutes: The amendment will assist in the effective administration of the authorizing statutes by complying with a federal mandate; by preventing a potential loss of state funds; by inserting program integrity measures; and by clarifying provisions and requirements. The amendment after comments assists in the effective administration of the authorizing statutes by incorporating a complete version of the Department for Medicaid Services Vision Program Fee Schedule and by referring to the appropriate chapter of Kentucky Revised Statutes for a definition of "optometrist."

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: This administrative regulation will affect vision service providers participating in the Kentucky Medicaid program. For calendar year 2012, twenty-two (22) opticians billed the Medicaid program [either a managed care organization or "fee-for-service Medicaid (non-managed care)] for services rendered and 614 optometrists billed claims to the Medicaid program. 7,298 individuals (managed care and fee-for-service combined) received services from opticians in calendar year 2012 and 187,896 individuals received services from optometrists (managed care and fee-for-service combined) during the same period.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will

have to take to comply with this administrative regulation or amendment. No action is required of the regulated entities other than properly billing for services and not violating program integrity requirements.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). No cost is imposed on the regulated entities.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). Medicaid recipients may benefit by being allowed to have a pair of eye-glasses per year (with an additional pair allowed if the first pair is lost or the recipient's prescription changes) rather than be subject to a \$200 or \$400 annual cap on eye-glasses. Providers will benefit from a user friendly fee schedule.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: In calendar year 2012, the Department for Medicaid Services (DMS), i.e. "fee-for-service" or "FFS" paid \$9,139 in claims to opticians and Medicaid managed care organizations paid \$548,235 in claims to opticians. For the same period DMS paid \$696,300 in claims to optometrists and Medicaid managed care organizations paid \$19,096,123 in claims to optometrists.

(b) On a continuing basis: DMS anticipates that paid claims (fee-for-service and managed care) in calendar years 2013 and 2014 will be similar to calendar year 2012 expenditures.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under Title XIX of the Social Security Act, state matching funds, and agency appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in funding will be necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor directly nor indirectly increases any fees.

(9) Tiering: Is tiering applied? Tiering is applied as eyeglass coverage is only available to those under twenty-one (21). 42 C.F.R. 441.56(c)(1) – which addresses early and periodic screening, diagnosis and treatment (EPSDT services coverage – mandates coverage for individuals under twenty-one (21).

## FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. 42 U.S.C. 1396a(a)(30)(A), 42 C.F.R. 447.201, 42 C.F.R. 447.204, 42 C.F.R. 441.56(c)(1), 42 C.F.R. 441.30, Section 2711 of the Affordable Care Act, and 45 C.F.R. 147.126.

2. State compliance standards. KRS 194A.050(1) states, "The secretary shall promulgate, administer, and enforce those administrative regulations necessary to implement programs mandated by federal law, or to qualify for the receipt of federal funds and necessary to cooperate with other state and federal agencies for the proper administration of the cabinet and its programs." KRS 205.520(3) states: "... it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary's power in this respect."

3. Minimum or uniform standards contained in the federal mandate. Vision services are not federally mandated except for those under age twenty-one (21) via the early and periodic screening, diagnosis and treatment (EPSDT) services for individuals under age twenty-one (21) program pursuant to 42 C.F.R. 441.56(c)(1). 42 C.F.R. 441.30 states, "The plan must provide for payment of optometric services as physician services, whether furnished by an optometrist or a physician, if—

(a) The plan does not provide for payment for services provided by an optometrist, except for eligibility determinations under §§435.531 and 436.531 of this subchapter, but did provide for those services at an earlier period; and

(b) The plan specifically provides that physicians' services include services an optometrist is legally authorized to perform." Medicaid reimbursement for services is required to be consistent with efficiency, economy and quality of care and be sufficient to attract enough providers to assure access to services. 42 U.S.C. 1396a(a)(30)(A) requires Medicaid state plans to: "...provide such methods and procedures relating to the utilization of, and the payment for, care and services available under the plan (including but not limited to utilization review plans as provided for in section 1903(i)(4)) as may be necessary to safeguard against unnecessary utilization of such care and services and to assure that payments are consistent with efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are available under the plan at least to the extent that such care and services are available to the general population in the geographic area." 45 C.F.R. 147.126 prohibits the application of annual dollar limits on essential health benefits. Medicaid program benefits are included in the scope of essential health benefits.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? No.

5. Justification for the imposition of the stricter standard, or additional or different re-

sponsibilities or requirements.

## FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services (DMS) will be affected by the administrative regulation.

2. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 194A.030(2), 194A.050(1), 205.520(3), 42 U.S.C. 1396a(a)(30)(A), 42 C.F.R. 441.30, 42 C.F.R. 441.56(c)(1).

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? DMS expects that the amendment will not generate revenue.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? DMS expects that the amendment will not generate revenue.

(c) How much will it cost to administer this program for the first year? In calendar year 2012, the Department for Medicaid Services (DMS), i.e. "fee-for-service" or "FFS" paid \$9,139 in claims to opticians and Medicaid managed care organizations paid \$548,235 in claims to opticians. For the same period DMS paid \$696,300 in claims to optometrists and Medicaid managed care organizations paid \$19,096,123 in claims to optometrists. DMS anticipates that paid claims (fee-for-service and managed care) in calendar years 2013 and 2014 will be similar to calendar year 2012 expenditures.

(d) How much will it cost to administer this program for subsequent years? In calendar year 2012, the Department for Medicaid Services (DMS), i.e. "fee-for-service" or "FFS" paid \$9,139 in claims to opticians and Medicaid managed care organizations paid \$548,235 in claims to opticians. For the same period DMS paid \$696,300 in claims to optometrists and Medicaid managed care organizations paid \$19,096,123 in claims to optometrists. DMS anticipates that paid claims (fee-for-service and managed care) in calendar years 2013 and 2014 will be similar to calendar year 2012 expenditures.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.
